

GORDIE HOWE INTERNATIONAL BRIDGE

NEW START DATE

LONG-TERM SOUTHBOUND I-75 SERVICE DRIVE CLOSURES

As construction of the Michigan Interchange continues, Bridging North America will close the Livernois Avenue on-ramp, including the southbound I-75 Service Drive, between Waterman Street and Dragoon Street.

This closure is required to support the construction of US Bridge ramps and the construction of the southbound I-75 Service Drive.

- Access to businesses will be maintained at all times and detour routes have been established to assist the traveling public.
- The Livernois Avenue on-ramp at southbound I-75 will close over a long-term period, starting August 10, 2021, at 7 a.m.
- The southbound I-75 Service Drive will close between Waterman Street and Dragoon Street, starting August 10, 2021, until August 1, 2022.
- For more information about active road closures, we encourage you to visit the project website at www.gordiehoweinternationalbridge.com.

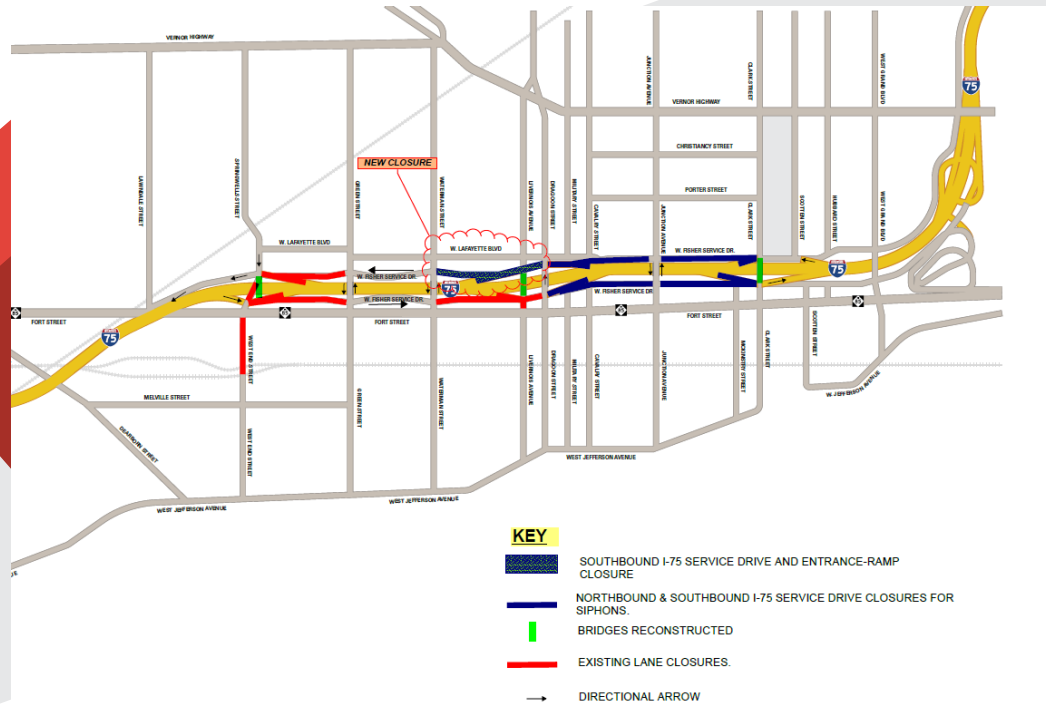

Big Picture View of I-75 Service Drive Closures

From a big picture standpoint, closing the northbound Service Drive from Waterman Street to Clark Street is critical for the ramp and service drive reconstruction, as well as the future opening of the Livernois, Clark and Springwells bridges. The Livernois, Clark and Springwells bridges are expected to open in fall of 2021.

Long-term Service Drive closures will be in place as follows:

- Waterman Street to Dragoon Street Service Drive closure until summer of 2022.
- Dragoon Street to Clark Street Service Drive closure until winter of 2022.

Long-Term Southbound I-75 Service Drive Closures

We appreciate your cooperation throughout this project. Every effort will be made to reduce inconvenience to drivers, residents and the business community. If you have any questions or concerns regarding traffic or these construction activities find out more:
