## Construction Activities - Canada

Week of December 16, 2024

### Road Closure

#### Sandwich Street

- Starting June 12, 2024, and lasting approximately six months, Bridging North America will have rolling full closures of Sandwich Street in place, within active construction zones to ensure the safety of the construction crews currently undertaking the work.
  - These closures will allow for crews to complete reconstruction work.
  - Construction activities will continue to take place in the following segments:
    - Chappell Avenue to Prince Road
    - Prince Road to South Street
    - South Street to Brock Street
    - Brock Street to Chewett Street.
  - Traffic is being detoured around the active work zone as follows:
    - All truck traffic will use Russell Street for both directions of travel.
    - All non-truck traffic will use Peter Street for northbound travel and Russell Street for southbound travel.
- During construction, parking on Sandwich Street will not be permitted but available on side streets and outside active work areas. Active work areas will be marked with temporary “no parking” signage.
- For more information about active road closures, we encourage you to visit the project website at [GordieHoweInternationalBridge.com](https://GordieHoweInternationalBridge.com)

## Construction Activities - Canada

**Week of December 16, 2024**

### Construction Activities

#### Canadian Port of Entry (POE)

- Construction activities remain ongoing for interior and exterior components of the buildings and structures.
- This month, activities focus on the ongoing work for mechanical, electrical, plumbing and technology package subsystems in various buildings. Crews also worked on outdoor signage installation.

#### Canadian Bridge site

- The Canadian bridge tower has reached its full height of 220 metres/722 feet.
- The two sides of the bridge deck are now connected over the Detroit River.
- All stay cables have been installed. Post tensioning of the stay cables is currently underway.
- Approach and back span activities are ongoing.
- This month, paving of the bridge deck is taking place.
