CUSTOMER ACCOUNTS

**SUBSCRIBE
FOR UPDATES**

An integral part of the Gordie Howe International Bridge tolling system is the use of customer accounts linked with transponders to move travellers quickly through the toll facilities.

Customers will be able to register for an account before opening day and benefit from:

**DISCOUNTED
RATES**

**FREE
TRANSPONDERS**

**CONSOLIDATED
BILLING**

**ON THE
ROAD FASTER**

**HASSLE-FREE
TRAVEL**

**CUSTOMER
CARE**

RECEIVE DISCOUNTED TOLL RATES WITH OUR FLEXIBLE ACCOUNT OPTIONS

BUSINESS ACCOUNTS

PREPAID

Prepaid business accounts will be available for businesses of any size and vehicle type, offering unlimited transponders linked through one account.

POSTPAID

Monthly invoiced accounts will be available for large business fleets conducting more than 1000 trips per month. An application and credit report will be required.

HOW IT WORKS:

When you register for an account you'll receive a transponder that allows you to simply drive to any open toll lane at the Gordie Howe International Bridge, and the gate will open in seconds upon your arrival. Tolls will be automatically deducted from your prepaid account or invoiced through monthly billing (postpaid).

The toll lanes at the Gordie Howe International Bridge are managed to optimize traffic flow, reduce queue lengths and save time.

PERSONAL ACCOUNTS

PREPAID

Prepaid account will be available for individuals, families and commuters with passenger-type vehicles. This account type will offer up to four transponders.

TOLL RATES:

Rates for the Gordie Howe International Bridge will be announced closer to opening day with a flat rate for personal vehicles and axle-based rates for commercial vehicles.
